Step 5: Rebalance your investment option allocation

Rebalancing allows you to realign your account balance with your investment choice effective 15th July each year. It is only applicable if you have selected more than one investment option.

The annual rebalancing feature will apply to the investment options selected for your only and excludes term deposits. It will change the future contribution investment option mix you have chosen if these option/s are different to the investment choice in place for your account balance. If you hold a term deposit at 15th July, only funds invested in non-term deposit investment options will be rebalanced in-line with your chosen mix of investment options

- () .
- Rebalance my account on 15th July each year as per my investment choice in Step 3.
 - Cancel my existing instruction to rebalance my account on 15th July each year.
