What have you tried since retiring?

Cognitive health in early retirement

What will my daily routine look like?

Having a daily routine and scheduled activities helps to create a sense of purpose and community in retirement. It's best to think about what this could look like now, so you can start to focus on what interests you.

"I wasn't really prepared for retirement. I was thinking from the money point of view only, not the social view, or what to do with my time. "

David, 71

How to make semi-retirement work for you

Brad's
story

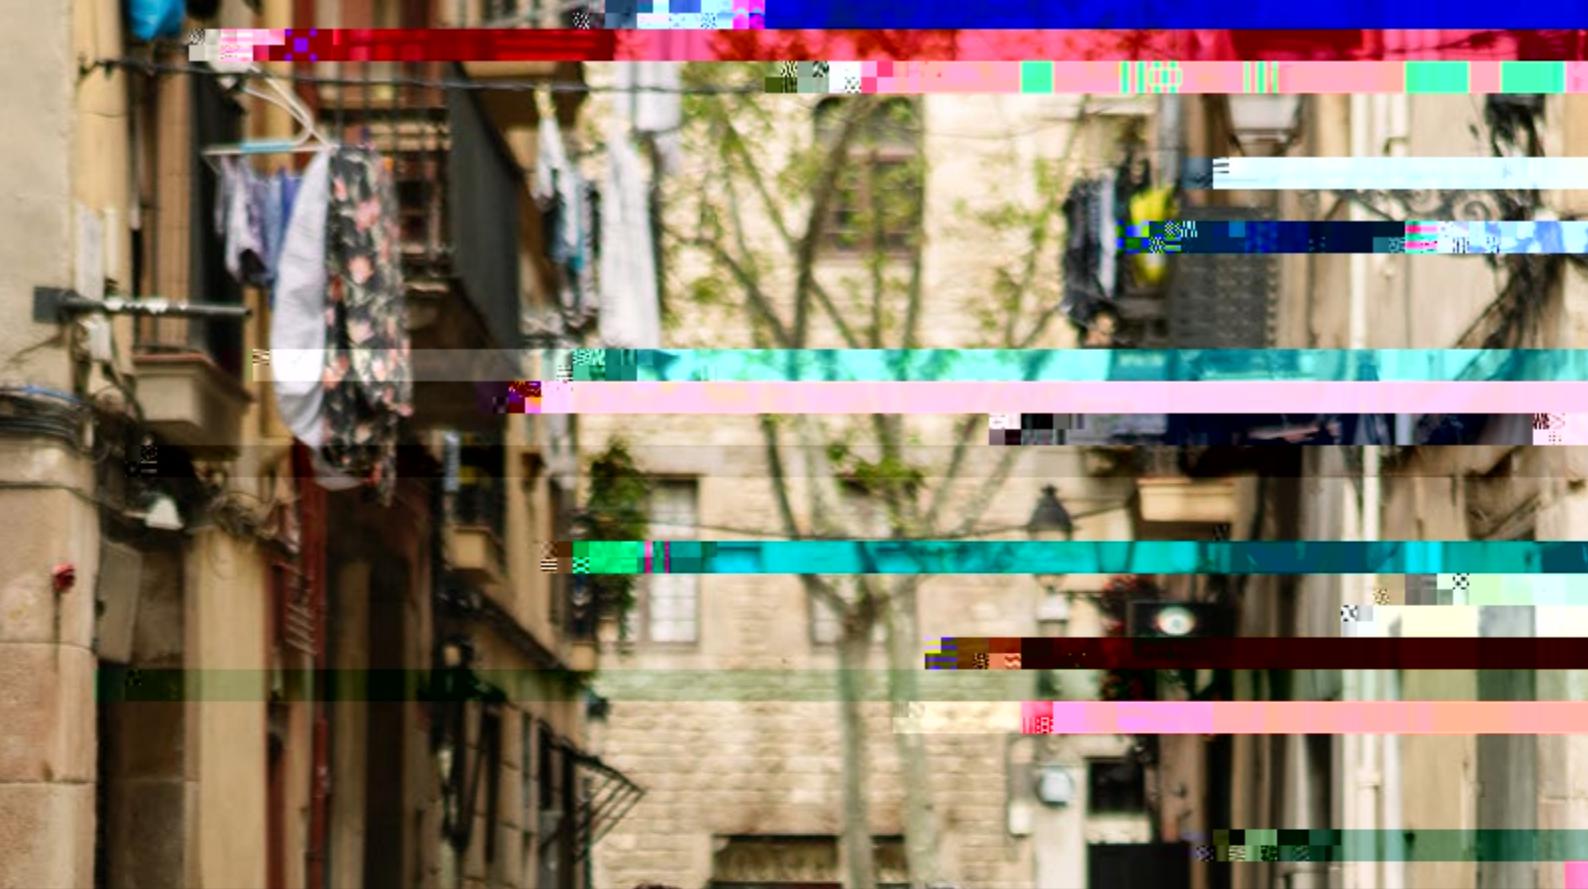

*"When I look
at people
who retired
around
the same
time as me,
especially
police*

*many seem
to struggle."*

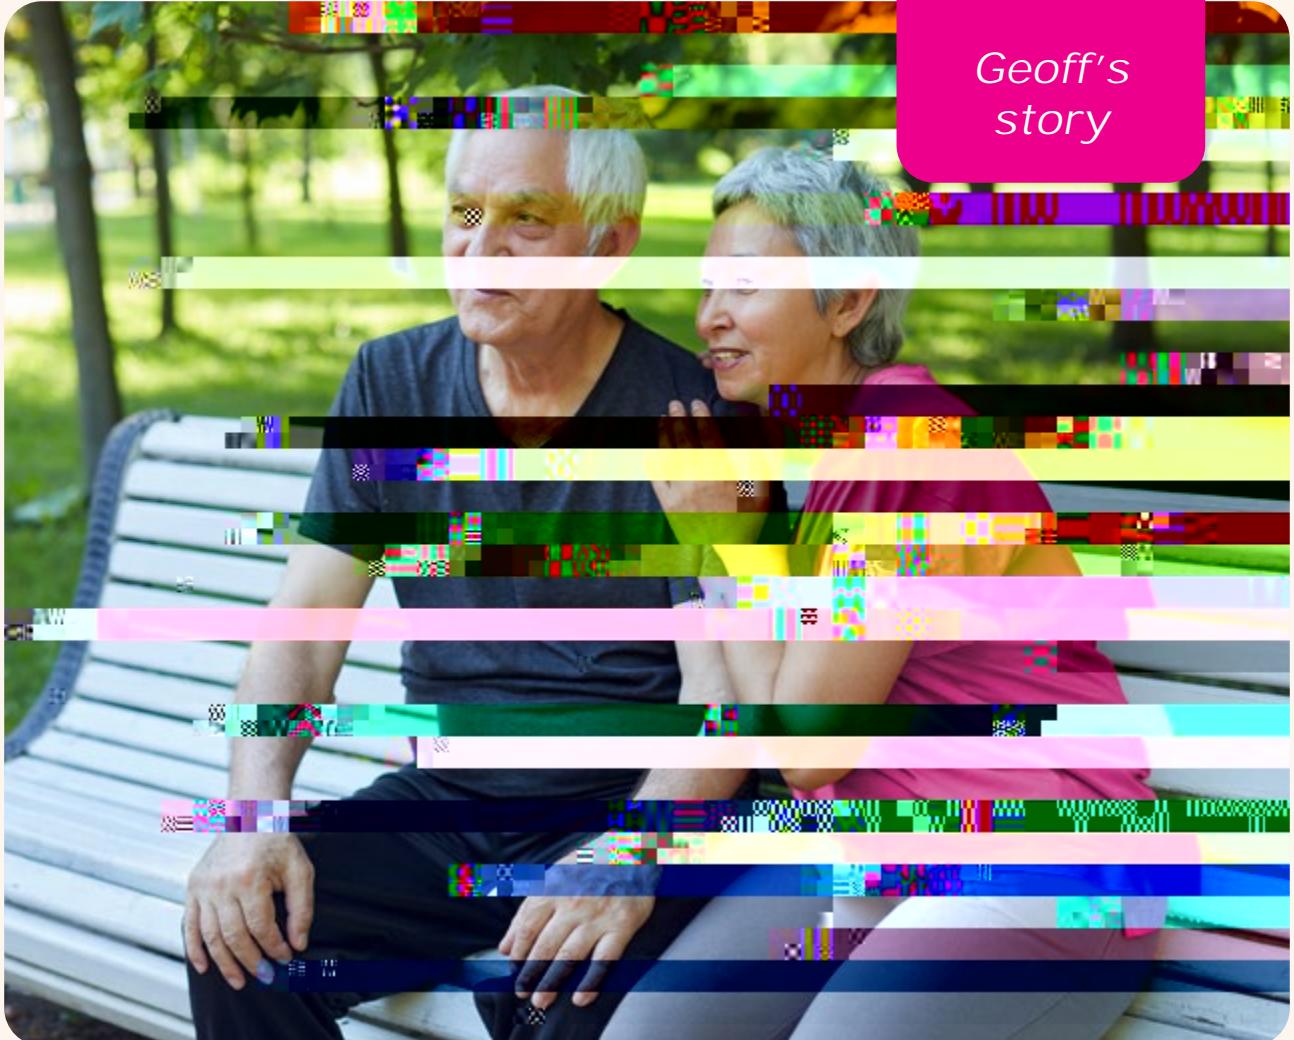

Brad, 62

One 15-year study found that people who worked past age 65 were around three times more likely to report being in good health and about half as likely to have serious health problems*.

Working later in life can pay off in more than just income

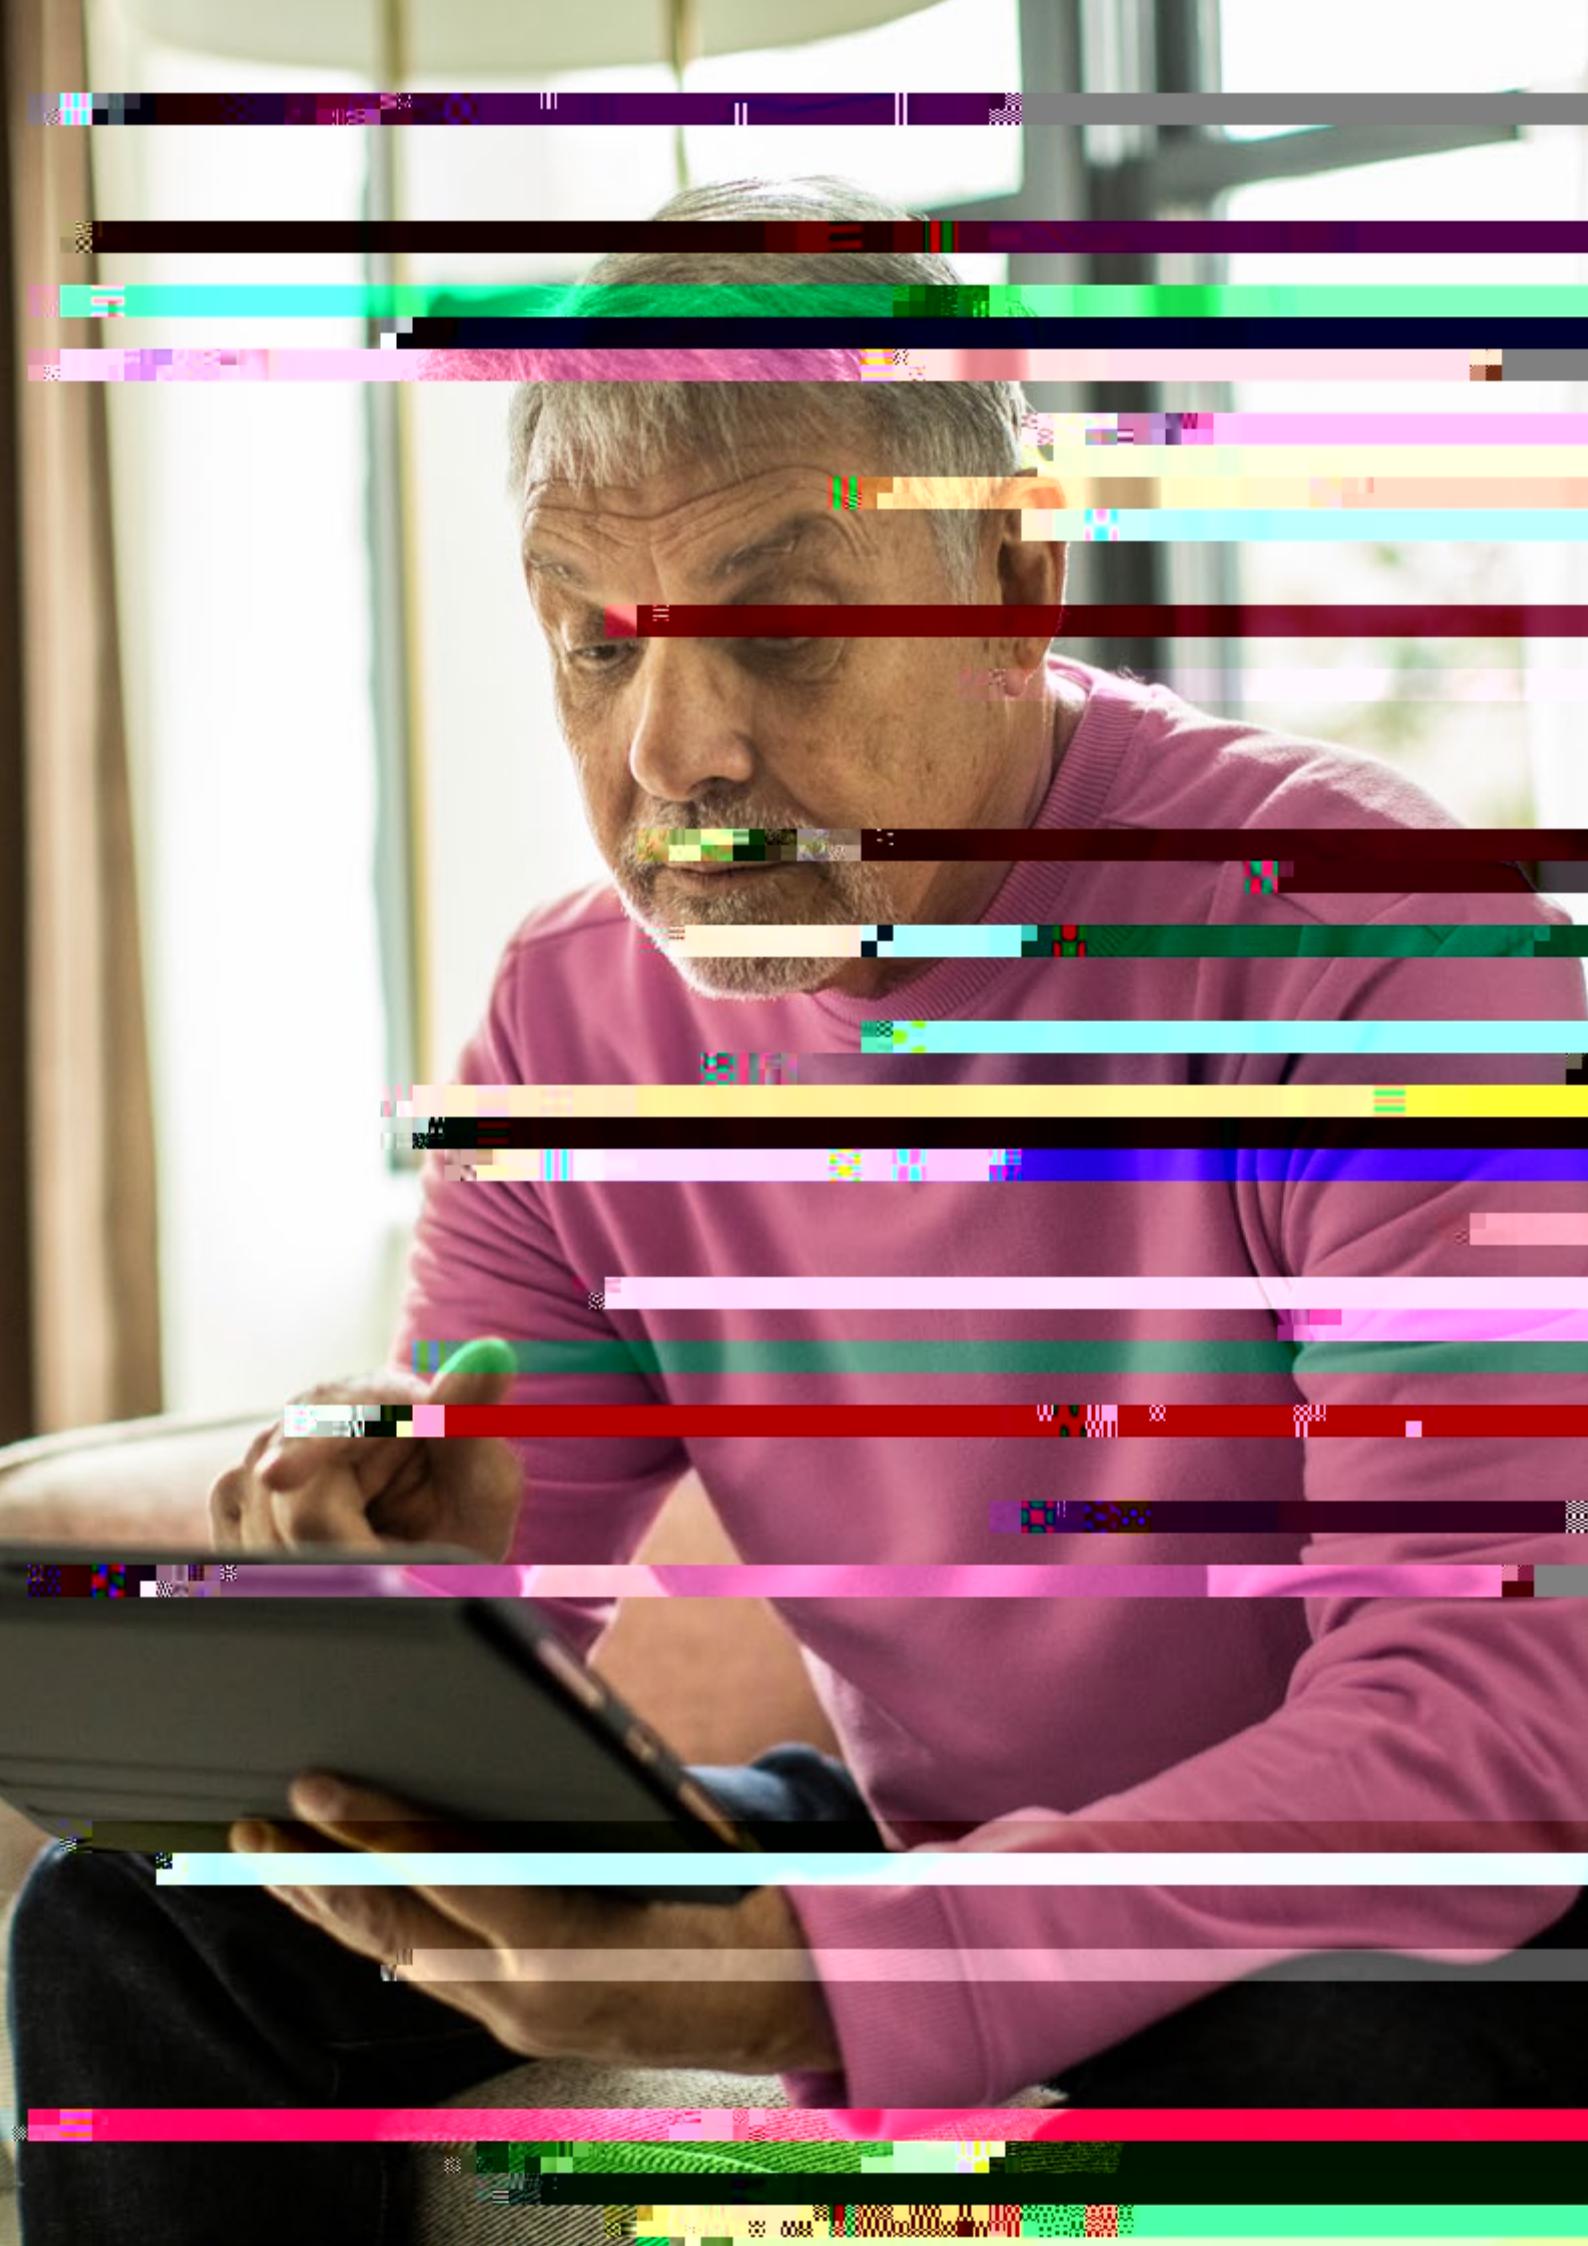

Use these questions to think about whether semi-retirement is a good option for you.
